TANEO | ARM-MOUNTED AND SYSTEM LUMINAIRES

LED

TANEO AN ALL-ROUND TALENT FOR WORKING WITH OPTIMUM LIGHT.

An uncompromising lighting solution is essential wherever your eyes are put to the test. Whether in manufacture, assembly, quality assurance or analysis, whether in labs, or the electronic, metal or watch industries: TANEO is a truly universal talent.

With luminous power to suit the particular application, high lighting quality and ergonomic handling, it provides optimum working conditions and is incomparable when it comes to adjusting to individual and task-related requirements.

- Maintenance-free LED technology with a service life of up to 50,000 hours and more
- Requirements-oriented output levels for up to 3,600 lx
- 30 % energy saving
- Continuously dimmable down to 10 %, with memory function
- Light Forming and Ray Mixing Technology for area light that is free from shadows and reflective glare
- Glare-free thanks to Conical Prismatic Screen (CDP) or white opal screen
- Flicker-free light with no IR or UV content
- Good contrast sensitivity and very good color recognition thanks to premium LEDs
- Uniquely flexible and balanced arm with an enormous radius of action or intelligent connections for space-saving under-cabinet assembly
- Closed construction for protection of the user and the integrated technology
- Robust aluminum and fiber glass-reinforced high-performance plastic
- Premium workmanship in accordance with Waldmann's quality standards

1 CDP screen: maximum luminous power.

2 White opal screens: maximum homogeneity.

3 Three sizes: Requirement-oriented output levels.

Efficient and requirements-oriented output levels

With three available output levels, the TANEO can properly fulfill every illuminance requirement. The advantage: Both in the procurement and in the operation, the costs are based on what is really needed.

But no matter what the illuminance, the TANEO is always particularly energy-efficient. It consumes 30 % less energy in comparison to conventional task luminaires with the same luminous power. Specifically, this means: With an illuminance of 1,400 lx, the consumption is just 15 W; for a powerful 2,600 lx or 3,600 lx, it is just 31 W or 47 W, including power supply.

LED-based lighting technology with high lighting quality

TANEO provides wide-range, homogeneous, glare-free and shadow-free lighting. This is thanks to innovative technologies such as Light Forming and Ray Mixing. The CDP or white opal screen also contribute to completely glare-free lighting. At the same time, the TANEO light is completely glare-free and particularly powerful. All this considerably relieves eye strain.

Additional positive characteristics of TANEO improve the results at the workplace. For example, the color temperatures used (4,000 or 5,000 K) make contrasts highly visible. In addition, the high color reproduction index of approx. 85 (variant with CDP screen) or 90 (variant with white opal screen) generates an extremely good presentation of colors. And because the light quantity is dimmable to down to 10 %, the TANEO very easily adjusts itself to individual needs.

TANEO ARM-MOUNTED LUMINAIRE VARIABLE AND CONVENIENT.

The uniquely flexible and balanced arm of TANEO can be effortlessly adjusted to any position. This is held without taking any further action, but can be locked if required.

The arm also has a particularly large radius of action. And the luminaire head can also be varied in any way thanks to the highly flexible 3D head joint.

TECHNICAL DATA

efficient^{light}

Dimension A: 15 W = 218 mm, 31 W = 398 mm, 47 W = 577 mm

Features at a glance

- 12, 24 or 36 x LED
- Power consumption 15, 31 or 47 W
- Color temperature neutral white 4,000 K or 5,000 K
- Glare-free thanks to Conical Prismatic Screen (CDP) or white opal screen
- Housing made of colorless anodized aluminum and black plastic, screen made of PMMA (CDP) or PC (white opal screen)
- Spring-balanced arm with 3D head joint
- Touch panel integrated in the luminaire head for On/Off and dimming
- System of protection IP20, class of protection III (luminaire) and II (power supply)
- Wall power supply (15 W) or table power supply (31 and 47 W), 100 – 240 V, 50/60 Hz, 3 m mains lead
- Various fastenings as accessories (see catalog)

Illuminance based on the example of 47 W with CDP screen

CONSUMPTION	SCREEN	COLOR TEMPERATURE	E_m / E_{max}^*	MODEL	ORDER NUMBER

TANEO SYSTEM LUMINAIRE SPACE-SAVING AND VERSATILE.

The TANEO system luminaire offers particularly space-saving and unobtrusive assembly options, e.g. under shelves.

You can choose between a design that is attached on both sides or a fold-out design. The latter is ideally used as a pair of luminaires.

Its practical arm enables it to be horizontally swiveled. This innovative connection enables e.g. a lateral illumination and thus shadow-free working in any task position.

The luminaire head can be rotated in both variants.

TECHNICAL DATA

efficient^{light}

Dimension A: 31 W = 359.5 mm, 47 W = 538.5 mm

Features at a glance

- 12, 24 or 36 x LED
- Power consumption 15 W (swivel arm) or 31 or 47 W (fixed connection)
- Color temperature neutral white 4,000 K or 5,000 K
- Glare-free thanks to Conical Prismatic Screen (CDP) or white opal screen
- Housing made of colorless anodized aluminum and black plastic, screen made of PMMA (CDP) or PC (white opal screen)
- Swivel arm (15 W) or fixed connection (31 or 47 W), with head joint that can be rotated
- Touch panel integrated in the luminaire head for On/Off and dimming
- System of protection IP20, class of protection III (luminaire) and II (power supply)
- Wall power supply (15 W) or table power supply (31 and 47 W), 100 – 240 V, 50/60 Hz, 4 m mains lead

Illuminance based on the example of two 15 W luminaires with CDP screen that are swiveled at an angle of 90° (Distance between the two luminaire heads approx. 90 cm)
