

# VOH IV-PROD

Pallet lifting adjustment device  
for the industry and the after-sales service

art VOH 2.00031

## Benefits

- Bidirectional displacement in the pallet lifting axes
- Pallet lifting displacement precision of  $\pm 1\mu\text{m}$
- Adjustable clamping forces
- Optimal vision of work with LEICA binocular
- Cold light lightning system with LED annular diffusion
- Usable for all current types of pallets
- LCD display and analogical indicator
- Integrated heating system, programmable from 70°C to 160°C, by 5°C increment
- Overall ON/OFF switch
- Power supply: 24 V AC /DC 110 - 230 V 50-60Hz
